Intended for 5-8 Grade Parents
- Tues., March 16 Building Resiliency among Children and Teens Ann Marie McAfee
 9:00 am
- Thurs., Oct. 1 This Isn't The Math I Remember Juli VonCanon and Lucia Washam
This parent education session is designed to help parents understand the ways in which mathematics is currently be taught in progressive schools across the country. We will explore the rationale behind concept-based instruction, and through hands-on approaches, we will show parents various ways in which we are engaging their children in class. We will also provide parents with tips and strategies for helping their child succeed in math at home.
 9:30 am
 6:30 pm

Mon., Nov. 2 Second Language Acquisition Workshop Karin Solomonson

Come and explore the methodology behind our Spanish program. Instead of merely rehearsing grammar, our students are learning through culture & communication in content-based classrooms. Unlike the Foreign Language classes many adults recall of endless grammar exercises, our "Second Language Acquisition" approach is a fascinating world of learning language for use...to explore the world around us.

6:00-7:30 pm

Wed., March 3 Kindergarten Readiness Joy Warner

9:30 am

High School Planning TBA
